Greece

France

Croatia

Turkey

Hungary

Spain

**“My Cultural Heritage and My Future” project aims to strengthen the capacity of cultural sector to be both a source of European identity and a setting for the development of innovative activities that boost job creation.**

**Our project is situated in the context of *the European Year of Cultural Heritage* and the contribution of Cultural Sector to the *employment of young people*.**

**We will improve skills in employment areas related to cultural heritage for youth workers, and volunteers of youth NGOs, youth centers, employment agencies or municipal social services.**

## **Implementation:**

**We will map six different countries and their own cultural heritage, an educational kit is to be created that allows future youth workers to ensure a better understanding, thus, creating more possibilities to counter unemployment.**

**We will exchange good practices, by creating of a network at European level which facilitates the work of young people with skills related to the cultural field, the training of youth leaders and the development of a European platform with online tools for youth workers to inspire and contribute to the dissemination of work on cultural heritage.**

# Thank you for your time!
